

Product Data Sheet

B 40 C/W

Compact scrubber drier with a range of innovations and options.

The B 40 C/W range of scrubber driers offers genuine innovation and high productivity, combined with a large number of options to perfectly suit different working environments. The B 40 C (non-traction) is available with either 240V mains or 24V battery power and the B 40 W (traction) is available with 24V battery power. Both the C and W battery versions feature Kärcher's unique KIK key system, which enables supervisors to set operating parameters for users. All models feature interchangeable heads which enable an end-user to switch between disc or roller heads in different widths to better suit different cleaning applications. A fantastic range of accessories includes on-board cleaning tool storage and an automatic tank cleaning system, all designed to increase productivity.

Cleaning heads: R 45 45cm twin roller
R 55 55cm twin roller
D 43 43cm single disc
D 51 51cm single disc

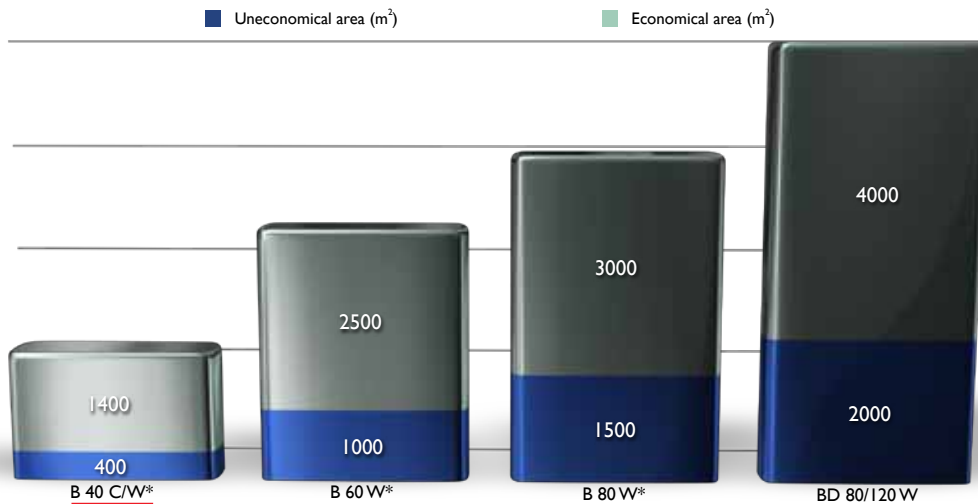

Features and Benefits:

- DOSE system provides automatic precise controlled supply of chemicals
- Onboard cleaning tool storage
- Operation and maintenance elements are colour-coded for simple and quick understanding
- Unique Kärcher Intelligent Key system allows supervisors to set operating parameters for users, avoiding misuse
- Range of brushes and pads available for both roller and disc heads which can be changed quickly without the need for tools
