

KÄRCHER

makes a difference

COLD WATER PRESSURE WASHER

HD 6/12-4 C Plus - 1.150-161.0

Whether they are used in a trade, by a cleaning company or in municipal facilities, the powerful and durable all-purpose machines in the compact class are extremely versatile and impress with their extensive range of equipment.

Ø Use/day

Technical Specification

Cold Water High-Pressure Cleaner	HD 6/12-4 C Plus
Operating pressure (bar):	20 - 120
Flow rate (l/h):	300 - 600
Connected load (kW):	2.8
Weight (kg):	24

Easy Press spray gun

- Ergonomic design for convenient operation.
- Reduced exhaust and retention force for effortless operation.
- With soft grip surface for a secure grip.

Infinitely variable pressure and water flow regulation

- Adjustable directly on the machine.
- For gentle cleaning of sensitive surfaces.

Servo Control

- Pressure and water volume can be adjusted directly from the trigger gun.
- With soft grip for a comfortable and secure grip.

Outstanding mobility

- For fast cleaning at different locations of use.
- Space-saving storage in service vehicles.
- Low work times thanks to integrated storage possibilities.

KÄRCHER

makes a difference

PRESSURE WASHER ACCESSORIES

Maximising the potential of your Kärcher machine

High-Pressure Hoses

High quality hoses with quick-change couplings for extending existing hoses or for specialist applications. Available in standard, food-safe or long life materials and 10m, 15m or 20m lengths.

Easy Press Trigger Guns

Comfortable grips and triggers reduce hand fatigue. Servo control instantly regulates pressure and flow to suit different applications.

Spray Lances

High quality stainless steel with tool-free unions. Pivoting versions can be turned through 360° - perfect for cleaning intricate or hard to reach areas like wheels and wheel arches. Five lengths available, from 600 to 2050mm

Underbody Lances

Designed to make cleaning chassis areas quick and easy. Featuring a floor wheel to minimise operator effort. Angled lance also ideal for cleaning gutters and roofs.

Rotating Wash Brush

Water-driven rotating brush head with nylon or natural fibre bristles for gently removing fine dust and traffic film from vehicles and rendered surfaces.

Cleaning Agents

Kärcher's cleaning agents optimise cleaning results whilst reducing cleaning time. They can lower energy consumption and reduce drain water pollution whilst improving safety and hygiene.

Drum, Barrel and Tank Cleaning

Electric motor-driven cleaning head specifically designed for fast, effective cleaning inside drums, barrels and tanks. Connects directly to HD or HDS machine and available in stainless steel or brass.

Hose Reels

Safe and convenient storage for up to 40m of high-pressure hose. Can be wall or machine mounted.

Couplings & Adaptors

A wide range available, from extension couplings for high pressure hoses to anti-twist hose couplings and trigger gun accessory couplings.

Wet Blasting Attachment

For adding abrasive material such as sand to the high-pressure jet. Ideal for graffiti, rust or paint removal. Fits to spray lance in place of high-pressure nozzle, and available with or without abrasive flow control.

Power Nozzles

Three different fan angles available: 15° for stubborn dirt, 25° for stubborn dirt over a larger area and 40° for lighter dirt over a large area. Or use the infinitely adjustable 0°-90° Angle-vario nozzle for greater convenience and versatility.

Triple Nozzles

Three fan angles in one convenient nozzle: high-pressure fan and pencil jets, and low pressure fan jet. Innovative touchless version also available - just a flick of the wrist to switch between fan and pencil jets without even moving your hand position.

Dirtblaster Nozzles

Innovative rotating pencil jet provides 10 x the cleaning power of a standard nozzle. Featuring ceramic nozzle and bearing ring for long life. For heavy duty cleaning tasks only.

iSolar

Extension length of up to 14 m, are made from full carbon or carbon/glass fibre composite and offer maximum rigidity with minimal weight. Quick-release fasteners allow the length to be easily adjusted while in use.

Floor and Hard Surface Cleaners

10 x greater area coverage than using a standard lance and nozzle, perfectly even coverage and no splashing. They come in 30 & 50cm diameter with plastic or metal cover. The FRV's even remove excess water leaving floors much drier.

Pipe and Drain Cleaning

Effortless and environmentally friendly pipe cleaning. No need for harmful chemicals, rods or feeding. Innovative nozzle simply pulls flexible 20 or 30 metre high pressure hose through pipe work.

Steam Nozzle (hot only)

Designed for fast thawing and de-icing in construction, for degreasing of engine bays, and for dewaxing of bodywork. Protective rubber casing also available.

Foam Sets

Foam spray lance for convenient low pressure foam and high pressure detergent application with optional high pressure injector with valve for accurate and economic detergent metering. Ideal for disinfection tasks.
